

Dear families,

We're School Parliament and we would like you to walk to school and not drive to school.

This is because we want you to save the environment and we don't want car pollution. Walking is daily exercise which can make you fit!

School Parliament did a survey on how our children get to school. 73% of Ducklings walk, wheel or skate and 87% of Cygnets too. We would love to try 100% walking in both classes!

Thank you for taking your time to read our letter.

School Parliament.
